# Manish Kumar Nirwal

Engineering Leader  
Ireland

## Summary

Engineering Leader with 20 years of experience driving software development and delivery across investment banking, travel, and fashion industries. Passionate about collaboration, fostering high-performance engineering teams, and partnering with cross-functional peers to deliver impactful products. Skilled in building strong relationships, shaping strategic initiatives, and leading teams to success.

## Key Responsibilities:

- Build strategic relationships with key technology and business leaders to drive success.
- Lead the planning, execution, and delivery of large, cross-functional projects.
- Define and implement strategic objectives aligned with broader business initiatives.
- Enable team success by removing obstacles and supporting professional growth.
- Partner with the Product Manager to plan and prioritize the team's roadmap.
- Collaborate with Talent Acquisition to establish a hiring process that attracts top talent.
- Actively contribute to the Engineering Management team, sharing best practices and tackling challenges with peers.
